

# COMPLIANCE SPOTLIGHT

Regulations are put in place as a set of best practices to protect both consumers and corporations. Achieving and maintaining compliance to these standards can be a burden to organizations, especially since it is a continuous process. Brite removes the burden of meeting compliance through our superior people, process and technology that continuously works for you.

## BENEFITS

**Immediate Protection**

**Real-time Alerting**

**On-demand Reporting**

## OUR PROCESS

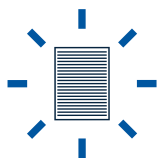

### DISCOVERY

The first step to reaching compliance is to have an understanding what regulations a company needs to comply with and how compliance they currently are. In the discovery process, Brite's team of experts dig into the current state and map out exactly what is needed for a company to achieve compliance standards like NY S.H.I.E.L.D. Act, NYS DFS, HIPAA and PCI.

### ACHIEVING & MAINTAINING COMPLIANCE

Brite is your partner in compliance. After a thorough discovery phase, our people, process and technology is utilized to help you achieve compliance. Additionally, our team of experts continuously monitor, manage and tune your environment for on-going support.

### DOCUMENTATION

Proper documentation of policies, periodic threat evaluations and events is critical in an organization's ability to maintain compliance. At the core of BriteStar is the ability to properly document and generate critical reports both scheduled and on-demand.

### CONTINUOUS MANAGEMENT

Compliance is not set and forget. Continuous monitoring and tuning is needed. The BriteStar team is watching your network 24/7 and is responding to alerts, ensuring you can maintain compliance to the most critical regulations.
