For over 25 years, Brite has brought you the technology you need, when you need it. We create ergonomic, safe, and effective mobile workplaces for your team on the go. Be it a police cruiser, ambulance, fire apparatus, or utility vehicle - we have you covered.

“

If other departments are looking for a technology provider that's reliable, friendly, professional, and very knowledgeable, Brite is the way to go. I just can't say enough about their service. They have been with the department since 2010 and have really been there for us. We wouldn't be as efficient as we are if it wasn't for Brite.

- AJ Mathewson
Police Captain | Lorain, Ohio

Computing

Redefining Rugged

As the preferred mobile technology integrator, Brite knows world class. That is why we partner with Getac – and only Getac – to offer our customers the best rugged computers. “ When somebody decided to run from the police, I wanted to make sure that the benefits outweighed the cons of the pursuit. I was able to both sit at my desk and be in the front of that patrol car to see how the pursuit was unfolding [with Getac Video].

-Steve Reeves
Police Chief | North Platte, Nebraska

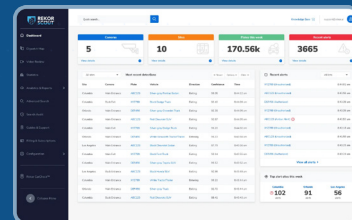

License Plate Readers & Vehicle Recognition

AI Powered for 99% Accuracy

Rekor's innovative AI-based LPR software provides over 99% accuracy on plate reads, multi-lane coverage, and make, model or color search. It is the most accurate plate recognition on the market with the ability to analyze difficult captures others cannot. Departments are able to confidently deploy more systems and better protect their communities.
